

A big update on some stats! Down3r is killing it!

PRESS RELEASE, EFFECTIVE IMMEDIATELY, 19th June 2020,

We got some big, juicy news for ya, DL fam. But not just one lot of it, but 3! Let's hear em all...

Well first, Down3r's official page is over 78,000 likes and 85,000 followers! Plus, his remix of Eminem and Ed Sheeran's "River" is at 201k views on Facebook! Finally... Suga Boom Boom is at a staggering 500 million plays across Spotify and Youtube, with 20,214,125 views on this Youtube video alone, damn!

And those numbers just keep climbing across the board! By the time you read this, it'll probably already be outdated. This is the power of DL's creative music and clout!

Could this be a result of the hype behind a new Down3r and LadyDice video being teased on his Facebook...? Perhaps partially. Either way, DL's fanbase are always hungry for more, so while all this is unsurprising, it's still fantastic to see! What a journey DL has been on!

No matter where you started to accompany him on this trip, whether it be from Wear Me Down, or from Down3r's tribute to Gabriel Fernandez, or perhaps the original Suga Boom Boom, you're equally a part of the DL crew, and we can't wait to see where he'll take us all next! Ordior is keen to see, since we're glad to be here to protect Down3r's catalogue and copyrights!

But for the few of you in the readerbase who are STILL unlucky enough to have not heard of Down3r after all this time and aren't sure where to start, consider this article an introduction to the rest of your hip hop life!

ABOUT ORDIOR:

www.ordior.com

Ordior is a software company designed to meet the very specific needs of content owners, software developers and digital rights managers all over the world. The Ordior systems have been designed to allow content companies, large or small, to outsource all of the tasks that sit between the content sale and distribution of funds, to the entire chain of royalty collection, accounting, reporting and distribution, through to the management and development of a sales team's commission structure and creation of value-added reseller networks and channels. Ordior is committed to developing and maintaining systems that are several generations ahead of those currently employed in the content industries. Best of all, we will continue to evolve with the digital economy, accommodating new business models and income streams as they come to market.

Ordior's proprietary software products have been developed by a world-class team of engineers and software developers. Ordior's software and rights management services are now used by over 200 record labels, software developers, film/media production companies and publishing houses. The Ordior royalty and payment management services platforms provide real-time reporting on transactions for our customers 24/7, 365 days a year.

Ordior provides a turnkey solution for all creators or I.P, digital content, software, music, films and other digital assets that have the need for transparent reporting, income stream management, rights management protection systems and mechanical copyright management and administration services. If you own content and you want your rights managed, then Ordior provides an excellent product offering and service.
